SUMMATIVE EVALUATION

COMMENTS	COURSE	KEY INDICATORS
Cameron has enjoyed a successful practicum at Neelin under the careful mentorship of Diane Fontaine and Cale Dunbar, with whom, along with other staff, he has built excellent working relationships. In many respects, when he arrived at Neelin for this final placement, Cameron was already a strong teacher candidate. From the outset, he proved comfortable in the classroom, making full use of both his strong subject knowledge and personable, engaged teaching manner, while demonstrating ambition with his comprehensive unit and lesson planning. In fact, he has consistently demonstrated passion for his subject areas, sharing it with his classes, and, all the while building productive relationships with students. He has worked to develop a diversity of learning activities across a range of modalities, for example, making good use of group work and vertical surfaces to enhance student learning, while concurrently integrating this with more traditional methods of delivery. He has also become more confident and effective with his classroom management, at times, clearly and concisely intervening and addressing inappropriate behavior, although this remains an area for him to continue exploring and strengthening. Cameron has also immersed himself in the wider day-to-day activities of the school, including participating in parent/teacher interviews, providing supervision for school clubs, and making himself available to students requiring additional support outside of their regular classes, including over the lunch hour, while not overextending himself. Additionally, while on practicum, he also completed two days of Treaty Training at BU. Cameron's practice has evidenced real growth during his time at Neelin, and he has proven receptive to feedback from his MTS, adapting his practice to reflect that feedback and integrating it into subsequent lessons. He is clearly committed to developing and improving as an educator, and with time and experience, he will doubtless do so, for example, through becoming more proactive with and responsive to communication; by more rigorously expanding and building up his bank of practical pedagogical approaches to match his subject expertise; and by developing visual and vocal cues to signal to students he requires their attention before addressing the whole class. Given his success so far, we are certain that Cameron will continue on to become an effective and valued educator.	1st Placement – 1st Yr Course # 01:271 5 weeks Term I Fall 2 Formal Observations by Cooperating Teacher(s) & Faculty Supervisors	Prepare two reflections to be shared with your Faculty Supervisor.
